Powered by  **Universal™**

## Virtual consultations are now open to anyone

---

### Built for everyone

**uConsult™** welcomes all healthcare providers and patients. It's not limited to any particular medical scheme – in fact you do not need to be a medical scheme member at all.

### Whenever, wherever

**uConsult™** can be accessed via your web browser from any connected smartphone.. smartphone, tablet, laptop or desktop. Virtual consultations can take place wherever it's convenient, at any time that suits both the healthcare provider and the patient.

### Easy to use

**uConsult™** is a highly intuitive platform so it's really straightforward to navigate and pre-populated details make your experience fast and efficient.

## Why you should use uConsult™

---

### Patients

Book online, get appointment reminders, connect securely for your virtual consultation and receive your encrypted healthcare documents directly in your inbox.

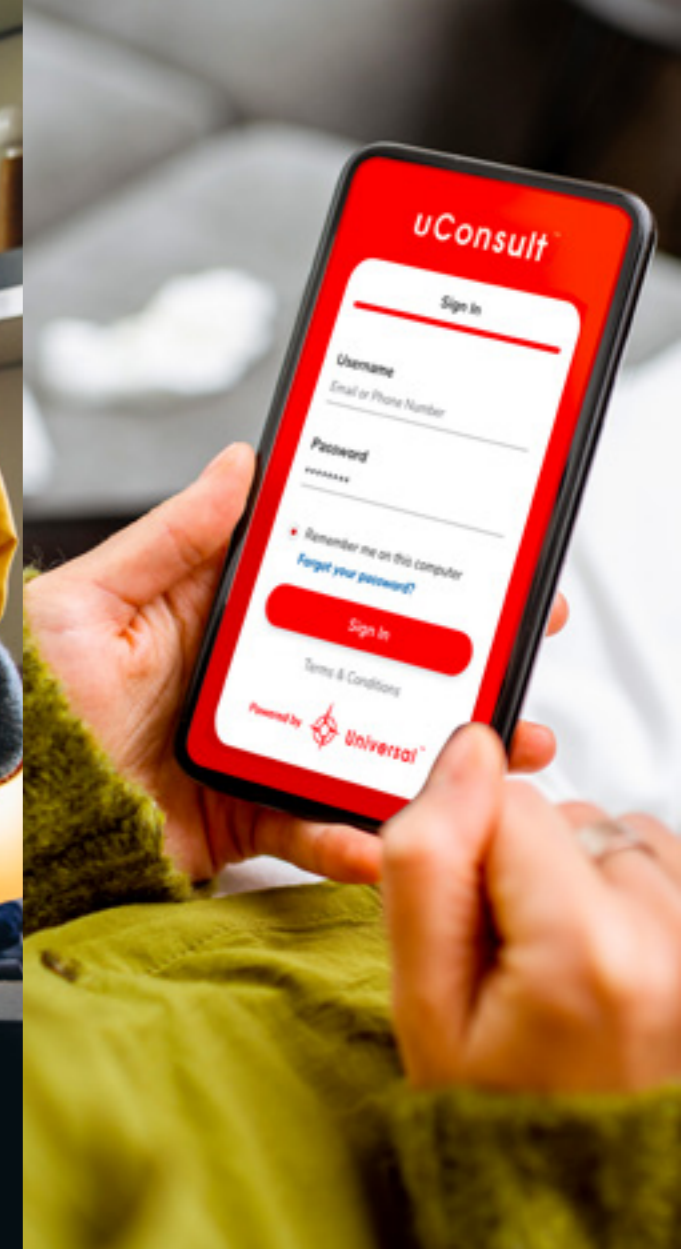

### Healthcare Providers

Subscribe to **uConsult™** to connect with your patients online and enjoy a simpler way to perform virtual consultations, generate prescriptions, make referrals to colleagues and specialists, request pathology and radiology forms, as well as request pathology and radiology forms - all on one integrated system.

### Healthcare Provider Administrators

Easily manage your healthcare provider's busy online practice using the electronic diary and option to invite patients.

## For patients, it's the simple way to visit your healthcare provider online

See your healthcare provider without leaving the comfort and safety of your own home. **uConsult™** is a secure, easy-to-use online platform that guides you through a hassle-free appointment booking and virtual healthcare consultation experience.

## The driving force behind the development of uConsult™

We're passionate about becoming a world-class healthcare and technology group respected for excellence, by providing real-time access to outcomes with a caring and customised approach.

We are proud to be making a difference in the health community with our specialised technological expertise and a collaborative approach towards geographic market insight.

### More About uConsult™:

Universal Healthcare recently expanded to the USA and Universal.one, Inc. is the latest addition to the Group. Created by a team of healthcare and technology experts, uConsult™ uses cutting-edge technology developed in Silicon Valley to seamlessly connect patients and healthcare providers on a digital platform. It innovatively brings together all the features needed for a quality virtual healthcare experience for both the medical professional and the patient, in a securely encrypted, user-friendly environment.

**Universal recently developed three new product platforms from our Innovation Campus in San Francisco, California:**

**uVax.one™** Accelerated vaccination management at scale.

**uConsult™** Telemedicine, virtual health and home-based care.

**uActivate.one™** An end-to-end digital insurance underwriting application.

## Additional value for healthcare providers

**An all-in-one integrated platform** means everything gets done in one place. No more switching between other apps and systems.

**uConsult™ handles all documentation** from prescriptions to payments.

**The uConsult™ secure payment gateway** makes money management easy for patients and providers.

Register for **uConsult™** today free of charge and discover a whole new way to see your patients on **u-consult.co.za**

# uConsult™
